The Northern Virginia Transportation Authority (NVTA) will consider an initial project list for regional transportation relief on July 12, 2007.

If the Authority approves the seven taxes and fees, as authorized by the General Assembly in the Transportation Finance Act (HB3202), then the Authority will be asked to approve this initial list of projects.

This \$102 million initial list of projects is designed to provide rapid, noticeable project implementation to address some of the region's transportation problems.

The list is comprised primarily of projects that have already been developed and simply lack the funding to proceed. Collectively the projects on this list reflect a balance of transit, multi-modal and roadway projects that are regionally distributed.

Over for the initial list of projects 

Total Bond Projects: \$102 million

Transit Project Description	Funding Amount
The Crystal City/Potomac Yards Transit Improvement project is being jointly developed by Arlington County and the City of Alexandria. The purpose of this project is to provide enhanced transit service in the Crystal City/Potomac Yards area, connecting the Braddock Road Metrorail Station to the Pentagon and Pentagon City. The service implementation plan envisions bus rapid transit (BRT) service operating in dedicated transit lanes on an alignment that generally follows Route 1 (Jefferson Davis Highway). As part of this regional project, the City of Alexandria will construct a running way between the Monroe Avenue Bridge and East Glebe Road.	\$11,458,820
Richmond Highway Public Transportation Initiative – Remaining pedestrian funding	\$10,000,000
Route 15 Park-and-Ride Lot in Prince William County	\$1,000,000
Installation of escalator canopy at Huntington south entrance to provide sheltered customer access to the station.	\$2,000,000
Western Park-and-Ride Lot in Loudoun County	\$1,400,000
Upgrade of station signage at 20 Virginia Metrorail stations to provide way finding signs, illuminated signs and other needed signage.	\$6,100,000
Upgrade of platform at West Falls Church and Vienna stations to improve safety and rehabilitate existing platform	\$3,500,000
VRE Locomotives (Local Match)	\$3,750,000
Transit Projects Total	\$39,208,820

Multi-Modal Project Description	Funding Amount
Wilson Blvd: Oakland to Randolph Phase II this project includes re-alignment of existing roadway, expanded sidewalks, improved transit stops and shelter, ADA compliancy at each intersection, improved street lighting and pedestrian crossing improvements.	\$2,000,000
Old Dominion Drive Multi-Modal Improvements Phases 2-5 - Construct curb, gutter, sidewalk, bike lanes and bus stop improvements from Glebe Road to the Fairfax County line.	\$1,500,000
Multi-Modal Improvements for the Intersection of Chain Bridge Road (Route 123) and Eaton Place	\$2,500,000
Citywide sidewalk replacement and construction - Falls Church	\$246,000
Multi-Modal Projects Total	\$6,246,000

Roadway Project Description	Funding Amount
Lee Highway at Harrison - Construction of left-turn lanes both east and westbound Lee Highway, including improvements to the ADA ramps, sidewalks, signal modifications.	\$800,000
Fairfax County Parkway/Fair Lakes/Monument Interchange	\$28,850,000
Nokes Boulevard Interchange to Severn Way	\$2,700,000
Battlefield Parkway—construct half section from Route 621 to new bridge	\$3,000,000
Intersection of VA 606 (Loudoun County Parkway) and VA 621 (Evergreen Mills Road) - Extend left-turn bay on northbound VA 606 (Loudoun County Parkway).	\$230,000
Traffic Calming Village of Aldie for Snickersville Turnpike to New Mountain Road	\$915,180
Maple and Main Intersection Improvements in Purcellville.	\$1,300,000
Route 28 overpass in Manassas.	\$2,000,000
Bull Run Post Office Road from Cedar Ridge Boulevard to Fairfax County Line (In Loudoun County)	\$1,500,000
Intersection Improvements on Manassas Drive	\$350,000
Prince William Parkway widening (4 to 6 lanes) from Hoadly Road to Old Bridge Road	\$14,900,000
Roadway Projects Total	\$56,545,180
